Why top developers trust our vision.

15+

YEARS OF COMBINED
SAUDI MEP EXPERIENCE

We are more than an installation contractor. RAAC is a proactive engineering partner built around execution speed, seamless consultant approvals and zero rework.

OUR SERVICES / ENGINEERED SOLUTIONS

From chiller plants to control rooms.

Integrated systems, designed for performance and delivered with code-level precision.

HVAC

HVAC & CENTRALIZED COOLING

Energy-efficient ductwork and chilled-water plants for high-rise and mega-projects.

POWER

ELECTRICAL & DISTRIBUTION

Saudi Electrical Code aligned load distribution, panels and generators.

SMART

LOW CURRENT & SMART BUILDINGS

Fire alarm, HD CCTV and advanced BMS for complete facility control.

FIRE

FIRE FIGHTING — OUR EDGE

Hydraulic calculations, UL/FM pump rooms and FM200 suppression for data centers.

PLUMBING

Plumbing & Drainage Systems

Comprehensive plumbing. Sanitary drainage, and water supply networks for commercial and residential projects.

The smartest choice for your next project.

01

15–20%

VALUE ENGINEERING

Vendor-approved alternatives reduce capital expenditure without compromising quality.

02

48 HOURS

RAPID RESPONSE

BOQ pricing within 48 hours, followed by on-site mobilization within days.

03

WEEKS SAVED

APPROVAL-READY DRAWINGS

Consultancy-informed shop drawings arrive in ready-to-approve formats.

From concept to handover.

A transparent, scheduled workflow with accountability at every gate.

STUDY & COSTING

Tender analysis and competitive quotation.

PLAN & APPROVE

Drawing finalization and material approvals.

MOBILIZE & EXECUTE

Expert teams with periodic progress reports.

TEST & HAND OVER

Full testing, trial runs and engineering file delivery.

OUR TEAM / HUMAN CAPITAL

Our people are your real guarantee.

A shield against code violations, coordination gaps and costly delay.

MEGA-PROJECT EXPERIENCE

On-site technical consultants resolve challenges and coordinate directly with consultant teams.

SAUDI CODE FLUENCY

Deep working knowledge of Saudi Building Code and safety standards.

Building success together.

A strong network of partners supporting every stage of execution.

RAAC

INTEGRATED MEP
ENGINEERING SOLUTIONS

Ready for a partner who puts your project first?

Bring us your upcoming project. Our experts will provide a free BOQ review, an initial value-engineering consultation, and an on-site assessment with preliminary plan within 24 hours.
